# ABOUT BENARA NURSERIES

**"Benara Nurseries is Australia's leading production and wholesale nursery. A family owned and operated horticultural business, Benara Nurseries specialises in commercially growing and supplying native and exotic plants from tubestock to advanced plants to the horticultural market."**

Established in 1963, Benara Nurseries is a leading family-owned and operated wholesale production Nursery based in Western Australia. Benara Nurseries main production facility covers 220 acres in Carabooda with an additional location in Wanneroo dedicated to flower and vegetable seedling cultivation, revegetation tube stock and forestry trees. We also have two separate Trademarts conveniently positioned North and South of the river allowing customers to select their own stock 6 days a week.

The collective expertise of our owners boasts over 200 years of experience in plant production for the horticultural industry. Benara Nurseries employs over 300 full time and part time staff including up to 50 key staff members with horticultural qualifications, who have been with the business for 10 years or more.

Benara Nurseries has a skilled and dedicated Propagation Department, growing plants from seed, cuttings and tissue culture, to strict schedules. We grow over 1500 individual species, encompassing both exotic and native varieties, across various pot sizes, resulting in an annual production of over 5 million potted plants. We also produce over three million flower and vegetable seedlings each year.

The nursery produces numerous revegetation lines, generating several million tubes and cell trays annually for key landscaping projects, revegetation, land rehabilitation and reforestation.

A key focus area for us is contract growing, where we specialize in growing trees, plants, revegetation, and seedlings to meet customers requirements. Leveraging over 60 years of production data, we efficiently manage growing times to ensure that our stock is ready for planting on the specified date.

## SERVICES

### WE ARE DEDICATED TO EXCELLENT QUALITY AND CUSTOMER SERVICE

#### Revegetation & Forestry

Driven by our commitment to restore our natural habitats, we've established a dedicated native revegetation department. Leveraging our expertise, we specialise in propagating top-quality native tube stock tailored for revegetation and landscaping projects.

#### Seedlings

Benara Nurseries boasts one of Australia's most advanced and automated seedlings nurseries. Employing cutting-edge techniques such as soil pasteurization, germination chambers, roller benches, robotic planting machines and boom watering facilities.

#### Trademart

Delivering specialized services, our two Trademarts are strategically positioned on both the North and South sides of the Swan River. These Trademarts offer convenient access to our wide assortment of plant varieties, seedlings, advanced feature trees, and other horticultural products.

#### Distribution and Delivery

Our own transport fleet ensures plants are delivered to site with great care and arrive in the best possible condition. Landscapers' requests are met as much as possible, and regular visits to retailers throughout the week ensures constant top ups of fresh nursery stock.

#### Contract Growing

Our expertise lies in contract growing trees, plants, and seedlings. Our experienced horticultural consultants and production team are able to engage in discussions and develop plans for your specific growing needs. With a wealth of over 50 years of production data and experience in cultivating everything from native to exotic species, we can manage the growing for an entire project.

Kalbarri Carpet

Pink Pantha

Nivea Spring Mist

Maculata Red

Amber Carpet

These resilient and drought-tolerant shrubs are native to Australia, where they thrive in arid and semi-arid regions. Eremophilas are renowned for their ability to adapt to harsh environmental conditions, displaying a diverse range of forms, from low-lying ground covers to tall shrubs. The plants are characterized by their small, tubular flowers that come in various colors, including shades of purple, pink, and red. The foliage is often aromatic, and some species are known for their traditional medicinal uses among Indigenous Australian communities. Gardeners appreciate Eremophilas for their unique appearance, hardiness, and ability to attract pollinators, making them a fascinating and ecologically valuable addition to both natural landscapes and cultivated gardens.

Dianella Tas. Blaze

# DIANIELLA

*Flax Lilly*

Native to Australia and New Zealand, Dianella is characterized by its arching foliage, ranging from various shades of green to blue. These plants are known for their adaptability to diverse soil types and climates, requiring minimal maintenance. Whether employed in formal or informal settings, Dianella stands as a resilient and visually appealing addition to gardens.

# LIRIOPE

## STRAPPY FOR SHADE

Emerald Cascade

30cm high x 20cm wide

**Foliage & Growth:** Liriope typically have linear, arching leaves arising from a central clump. The foliage is evergreen, providing visual interest throughout the year. The leaves can range in colour from green to variegated varieties.

**Flowers:** Liriope produces spikes or racemes of small, tubular flowers. The flowering period varies by species and cultivar, generally occurring in late summer or early fall. Common flower colours include shades of purple, violet, lavender, and white.

**Adaptability:** Well-suited for a range of environmental conditions. It thrives in well-drained soil but can tolerate a variety of soil types. Additionally, these plants are adaptable to both full sun and partial shade, making them a versatile choice for different garden settings.

**Landscaping Uses:** Liriope is often used as a ground cover, edging, or border plant due to their clumping growth habit. They can also be planted beneath trees or in shaded areas where other plants may struggle.

**Low Maintenance:** One of the key attractions of Liriope is its low-maintenance nature. Once established, these plants are relatively drought-tolerant and require minimal care. Pruning is generally only necessary to remove spent flower spikes or to control the spread in certain settings.

# BOUGAINVILLEA

## *Climbers*

Bougainvillea is a genus of vibrant and ornamental flowering plants known for their dazzling displays of colourful bracts. These bracts come in an array of shades, including pink, red, orange, purple, and white, creating a striking visual impact. These hardy vines or shrubs have become popular in various tropical and subtropical regions worldwide. Bougainvillea's thrive in full sunlight, well-draining soil, and warm temperatures, making them suitable for outdoor gardens, containers, or as climbing plants along fences and structures. Known for their resilience and drought tolerance once established, Bougainvillea's require minimal maintenance and can add a burst of vibrant colour to landscapes year-round in suitable climates.

# WISTERIA AMETHYST FALLS

*American Wisteria*

Wisteria Amethyst Falls features abundant lilac flowers, making a stunning display in Spring and sporadically blooming through Summer. Its compact growth is ideal for enhancing fences, walls, and arbors without overpowering. Resilient and waterwise once established, this Wisteria reaches a manageable 3 meters in height and 2 meters in width, creating an impactful presence in your outdoor space.

Wisteria Amethyst Falls

Trachelospermum Jasminoides

# TRACHELOSPERMUM JASMINOIDES

*Chinese Star Jasmine*

Trachelospermum Jasminoides is a robust climber with glossy leaves and highly fragrant white flowers blooming continuously from Summer to Autumn. Versatile, it covers structures, serves as ground cover, a low hedge, or a container plant. Thriving in full sun to part shade and various soils, it's low-maintenance, drought-tolerant, reaching 3-6 meters as a climber or maintaining 30-40cm height as ground cover.

# MANDEVILLA

A genus of tropical and subtropical flowering vines and shrubs known for their stunning, trumpet-shaped flowers. Mandevillas typically feature glossy green leaves and produce large, showy blooms in various shades, including pink, red, and white, popular choices for adding vibrant colours to gardens and landscapes. They thrive in warm climates and can be grown both as climbers or container plants, making them versatile options for gardens, patios, and balconies. With proper care they can provide a spectacular display of blossoms throughout the growing season, adding a touch of tropical beauty to outdoor spaces.

# GOLDEN CANE

DYPISIS LUTESCENS

Evergreen / Outdoor / Palm/ Cycad / Perennial  
Dimensions : 1m high x 1m wide

*Dypsis lutescens*, a resilient tropical palm, is prized for its decorative appeal. Sporting numerous golden-colored trunks, it lacks a central trunk and gracefully curves outward from the base. This versatile palm serves well in landscaping and as an indoor plant, adding charm to areas around pools, patios, and as an ideal tub specimen. Whether placed indoors in a warm spot with filtered light or outdoors in a sunny to partly shaded, frost-free position, *Dypsis lutescens* adapts. For optimal growth, it benefits from regular fertilization during the warmer months.

# KENTIA PALM

HOWEA FORSTERIANA

Evergreen / Indoor/Shade / Native Australian Plant /  
Outdoor / Palm/Cycad / Perennial / Tree  
Dimensions: 9m high x 4m wide

The Kentia Palm, native to Lord Howe Island off the east coast, is characterized by its relatively slow growth, featuring a slender trunk and gracefully drooping fronds. *Howea forsteriana* has been a favored indoor plant since the Victorian era and continues to be popular today. Adaptable to low sunlight, air conditioning, and central indoor heating, *Howea forsteriana* is known for its low maintenance requirements. When kept indoors, it thrives in areas with decent but indirect sunlight exposure, and it is crucial not to overwater.

# BAMBOO

## BAMBUSA GRACILIS

Gracilis bamboo, originating from China, is a compact and attractive variety known for its straight, slender form and lush green foliage. Ideal for container planting and offers a classic bamboo look, reaching up to 6 meters in just two years, making it excellent for space-efficient landscaping and screening against noise and lights. Adaptable to containment in a 50cm-wide area, it is the most popular bamboo variety in Australia, thriving year-round with frequent watering initially and minimal maintenance once established.

Platycerium Netherlands

Phlebodium Blue Star

Cyrtomium Falcatum

# FERNS

## PHLEBODIUM DAVANA

Phlebodium Davana, an exquisite and compact fern with deeply lobed fronds, thrives in well-draining soil when placed in shaded areas of rock gardens, borders, or as indoor potted plants. Ensure soil moisture during dry periods and apply a slow-release fertilizer in spring. For optimal growth, use a diluted liquid fertilizer every four weeks in warmer months, taking care to avoid over-concentration. This fern, reaching heights of 60-90cm and widths of 30-40cm, should be protected from frost to maintain its vitality.

Phlebodium Davana

# INDOOR/ SHADE FAVOURITES

Incorporating popular and classic indoor plants into your living or working spaces not only brings nature indoors but also contributes to a healthier and more aesthetically pleasing environment. As living elements in indoor spaces, these plants offer not only visual beauty but also opportunities for educational experiences, fostering a sense of responsibility and connection to nature.

# GROWING TREE STANDARDS

### THE STANDARD

Benara Nurseries grows trees to meet the Australian standard AS-2303 Tree stock for landscape use. The goal of the standard is to help set a baseline to which trees can be quality assured.

### WHAT WE DO

Adhering to national tree standards entails evaluating essential factors that determine tree quality. At Benara Nurseries, we take pride in cultivating trees that meet these standards and specifications for each tree in our production.

### THE ADVANTAGES

Incorporating national tree standards into our tree production ensures the acquisition of top-quality trees at the time of purchase. When combined with sound urban planning, landscape design, appropriate planting and establishment techniques, and regular maintenance, these standards greatly increase the likelihood that trees will contribute to long-term sustainability goals.

## CONTRACT GROWING SPECIALISTS

Plan ahead for your plant needs by arranging a contract grow or placing a forward order with us. Our horticultural consultants are ready to assist you in navigating availability, growing conditions, and scheduling. We offer comprehensive solutions for all your planting requirements, including reforestation, seedlings, annuals, trees, shrubs, evergreen trees, climbers, shade plants, and a variety of succulents.

### Grow Times

- Tubestock, 13cm/ 14cm pots: 6 months - 1 year.
- 17cm, 5lt/ 8lt pots: 1 year - 1.5 years.
- 12lt, 30lt, 90lt: 2 years - 3.5 years.
- 200lt, 500lt: 3.5 years - 4+ years.

# AUSTRALIAN TREES

Australian evergreen trees are excellent choices for the landscape. They are hardy and low maintenance, and provide many environmental benefits and help to restore and preserve the natural environment.

# PLUMERIA

Hot Pink

## FRANGIPANI

With an array of varieties and colour, the Plumeria continues to be an all round favourite for the avid gardener and those alike. During summer, these tree varieties produces stunning sweetly fragrant flowers. Plumeria's are ideal for feature trees as the colour variation provides excellent colour and contrasts against the lance-shaped dark green leaves. They can also be grown in containers or pots. These deciduous trees give an overall sense of tropical paradise, peace and tranquility. Plumeria's thrive in areas of full sun to part shade, with well drained soils.

# OUR SEEDLINGS DIVISION

Benara Nurseries' seedling nursery is considered to be one of the most modern and automated seedling nurseries in Australia; using soil pasteurisation, germination chambers, roller benches, robotic planting machines and boom watering facilities. We produce a diversified range of high quality annual and vegetable seedlings, including:

- Flowers - Fairy Flowers (80 cell trays), including Impatiens, Pansies, Petunias, Vincas and more.
- Veggies - Fairy Veggies (80 cell trays); Garden Fresh (80 cell trays and Maxi Pots), including Tomatoes, Chillies, Eggplants and more; and Garden Fresh Advanced (4 packs) including Herb Mix, Lettuce Mix and more.
- Strawberries - (Maxi Pots).
- The Diggers Club - (80 cell trays, 4 packs, and Maxi Pots) heirloom varieties, including Beetroots, Rainbow Chard and more.
- Vibrant Living - (Maxi Pots) advanced flowers, including Geraniums, Gerberas, Sunflowers and more.
- Benara Nurseries is also a United Nurseries licensed grower.
- Availability is updated daily online or by email request.

# OUR REVEGETATION DEPARTMENT

We are dedicated to restoring our natural environment, prompting the establishment of a specialized native revegetation division. Armed with expertise, we excel in cultivating premium native tube stock for landscaping and revegetation ventures. Our offerings cater to diverse environments, such as coastal areas, wetlands, riverbanks, coastal plain woodlands, Perth hills, post-harvest rehabilitation in pine forests, and reclaimed farmland, spanning both urban and regional locales. To continue to advance and develop growing of the finest quality best value plants, the ability to innovate is critical. Through consultation and collaboration with key staff, industry specialists and calling on the wealth of knowledge and experience from senior generations, we continue to improve our efficiency and systems to ensure the most suitable plants are supplied. Some of these methods include:

- Mass produce reeds and sedges or hand produce more delicate species.
- All stock produced is air pruned providing a far higher survival rate for revegetation projects.
- All our stock received 6 to 8 months of slow release fertiliser, so your plants will receive good nutrition even after the plants have been planted out.
- Eco-hort accreditation and regular phytophthora testing ensures the highest possible nursery standards and hygiene.
- We continually trial new and recalcitrant species.

# TERMS AND CONDITIONS

## TRADING TERMS

The monthly TRADE price list applies to TRADE ID CARD holders.

All TRADE clients must show TRADE ID CARD at time of purchase.

WHOLESALE clients must show business ID with each purchase, wholesale clients pay a 'Wholesale Price' as listed in catalogue.

TRADE REFERRALS must provide a letter of referral on the company letterhead of the referrer at time of purchase and will be charged 'Wholesale Price' unless accompanied by the referrer. WHOLESALE clients can not refer clients.

All prices quoted are Trade prices excluding GST.

Benara Nurseries will not accept any responsibility for damage to stock once it has been delivered to a transport company. Claims relating to any damages should be addressed with the carrier.

If plants are personally selected by the client from the stock line for delivery or pick up, will

be held no longer than 48 hours, due to plant care requirements.

## CASH AND CARRY

Cash and Carry Discount is offered to all TRADE and WHOLESALE customers.

Discount DOES NOT apply to selected stock, specials, allied garden products, pottery, stones and artificial turf.

All stock purchased needs to be paid for and taken on the day. No holding stock.

### CARABOODA

5% Cash & Carry discount on plant stock up to and incl. 30lt, selected and taken from the Trademart.

5% Cash & Carry discount on plant stock from 35lt to 500lt, selected and taken from the Trademart.

### FORRESTDAL

5% Cash & Carry discount on plant stock up to and incl. 30lt, selected and taken from the Trademart.

5% Cash & Carry discount on plant stock from 35lt to 500lt, selected and taken from the Trademart.

## PICK UPS

Pre-organised pick ups must be a minimum of \$150.00 in value.

Pick up orders must be placed 48 hours prior to pick up time.

If you require a pick up before this time please contact our sales staff.

### FORRESTDAL

Pick up orders must be placed 72 hours prior to pick up time.

Pots up to 15cm must be ordered in multiples of 4.

17cm and 5lt pots must be ordered in multiples of 3 or 5.

If minimum quantity is not met, Benara has the right to increase the minimum quantity order without notice.

All pickups that are not picked up on the required date will incur a 20% handling fee.

Advanced Trees are available for viewing/pick-up between 7.00am – 3.30pm on Monday to

Friday only. All advanced tree orders and viewing must be booked through the office sale staff.

## SATURDAY TRADING

OPENING HOURS 7.30AM – 2.00PM.

All sales are strictly from the sales display area only.

Staff and customers do not have access to the growing nurseries on SATURDAYS.

Pre-organised pick ups are available between 7.30AM – 1.00PM.

All advanced tree orders and appointments are weekdays only. Book a viewing with the office sales team between 7.00AM – 3.30PM, Monday to Friday only.

## DELIVERIES

Seedling deliveries in tray quantities only.

48 hours notice required for general stock deliveries.

Orders must be placed with Sales Office before 3.30pm on Mondays – Friday.

Kerb side deliveries only, up to and including 30lt bag/pot size.

Pots up to 15cm must be ordered as a minimum of 4.

17cm and 5lt pots must be ordered as a minimum of 3.

If minimum quantity is not met, Benara Nurseries has the right to increase the minimum order quantity without notice.

Deliveries are unavailable from the Forrestdale Trademart.

## DELIVERY RATES ARE AS FOLLOWS:

## DELIVERY TO BUNBURY & SURROUNDING AREAS

Scheduled delivery dates to Bunbury are Monday, Thursday and Friday. For Monday deliveries, orders need to be placed by Thursday the week prior. Deliveries cannot be guaranteed to Bunbury on Mondays as often the trucks are full with deliveries for further south. Current month's delivery schedule available online.

## REVEGETATION CELL TRAYS

Orders for Cell trays will be charged as follows and credited upon return of the tray: 64 Cell

tray = \$5.00 (64CELTRA); 104 Cell tray = \$7.00 (104CELTRA).

## ADVANCED TREE STOCK DELIVERY

Deliveries above 30lt bag/pot size.

Minimum delivery charge \$199.00 or 5% of order value, whichever is greater.

Delivery boundaries:

Within Perth metropolitan area.

Outer metropolitan deliveries by prior arrangement.

Delivery days Monday to Friday depending on load capacity.

## STONES

Full stone pallets only. Customer must have a forklift at the delivery site to unload stock.

Delivery Schedule and Charge

Northern suburbs \$95.00 ex GST, additional pallets will be charged \$45.00 per pallet.

Southern suburbs \$145.00 ex GST, additional pallets will be charged \$45.00 per pallet.

## POTTERY

Delivery not available for pottery items. Benara can pack for a courier to collect at a cost of \$50.00 per pallet to pack. If the customer would like the pottery delivered to a transport

company a packing and delivery charge of \$150.00 will be applied.

## RESERVED STOCK

Only quantities above 50 plants will be reserved and held in 13cm – 12lt pots. For all other reserved contract grown stock conditions, please see your Salesperson.

## RETURNS AND CANCELLATIONS

No tree will be accepted back under any circumstances if it has been taken out of the bag, as this is against accreditation standards.

Benara Nurseries reserve the right to charge a handling fee of 20% for all returns, cancellations and amendments.

Stock may only be returned at the point of delivery and only by the approval of management.

Approved returns within 24 hours for faulty product will be refunded. No credits will be given for customer change of mind or incorrect size if not returned in good order and condition within 48 hours.

Benara Nurseries will not accept any responsibility for damage to stock once it has been delivered to or picked up by a transport company. Claims relating to any damages should be addressed with the carrier.

## IMPORTANT

Refer also to 'Terms and Conditions' of sale on Benara Nurseries website.
